

## ICFMCE 2023

2023 International Conference on Functional Materials and  
Chemical Engineering  
Wuhan, China | August 25-27, 2023

### Topics of interest include, but are not limited to:

- Advanced materials processing
- Advances in computational & numerical methods
- Biochemical and bio-molecular engineering
- Biochemical Engineering
- Bioengineering and biomedical engineering
- Biological and Medicinal Chemistry
- Biotechnology
- Catalysis and reaction engineering
- Chemical engineering educational challenges and development
- Chemical engineering equipment design and process design
- Chemical reaction engineering
- Chemical, Environmental, and Process Engineering
- Chemistry and Chemical Engineering Fundamentals
- Computational fluid dynamics and chemical engineering
- Nanomanufacturing
- Nanomaterials
- Nanotechnology
- New materials and structured products
- Particle technology
- Particulate systems
- Physical chemistry and thermodynamics for life sciences and biotechnology
- Physical, Theoretical and Computational Chemistry
- Process & product synthesis & design
- Process Analytical Technology - PAT
- Process control and operations
- Process design and optimization
- Process integration
- Process intensification
- Process operation & control
- Process Safety Management
- Process synthesis & design
- Process system, instrumentation and control

Please visit the conference website for more details: <http://www.icfmce.org/cfp>

### Conference Chair

Professor Fnian Shi  
Shenyang University of Technology, China

### Previous Speaker

Prof. Vladimir Strezov  
Macquarie University

### Program Committee Chair

Tjoon Tow Teng—Han Chiang University College,  
Malaysia

### Program Committee

Boon Seng Ooi—Universiti Sains Malaysia,  
Malaysia

Yee Shian Wong—Universiti Malaysia Perlis,  
Malaysia

Zeinab Abbas Jawad—Qatar University, Qatar

Adhi Kusumastuti—Universitas Negeri Semarang,  
Indonesia

### Overview

2023 International Conference on Functional Materials and Chemical Engineering (ICFMCE 2023) aims to bring together scholars, managers, researchers and students of Functional Materials and Chemical Engineering related areas and industries for intellectual exchanges, research cooperation, education and professional development. ICFMCE 2023 will offer keynote speeches and several research topics, for inviting presentations of theoretical research findings and case study in Functional Materials and Chemical Engineering and its related fields, and also offers excellent networking opportunities to participants, with a wonderful taste of local culture and scenery in Changsha, China on August 25-27, 2023.

Contact: Ms. Sukki. Chiang

Email: [info@icfmce.org](mailto:info@icfmce.org)

Tel: +852-30696823(English)

**Consult**

### Paper publication

All accepted and presented papers will be published in digital conference proceeding, which will send to be reviewed and indexed by major citation databases such as Ei Compendex, Scopus, CPCI, Google Scholar, etc. Selected papers will be considered for submission in journal after significant extension.

#### Full Submission:

March 31st, 2023

#### online submission:

[Conference Management Toolkit - Login \(microsoft.com\)](#)
